You don't have to attend a business school to learn about financial analysis, but it helps to have some basic understanding of what makes a bank or investment bank tick. As a part of a business school degree, "financial modeling" is an excellent way to get an idea of the inner workings of an organization and the accounting and. Some of the basic terms used in financial modeling include: – Balance Sheet: It is a listing of all the money owned by an organization including cash, accounts receivable, accounts payable, prepaid items, and other items on hand. The word "balance" means equal, so this can be used for a math example: Total cash equals total accounts receivable, or something similar. – The Equity Line of Credit (referred to as the "Ely"): An offering of a specific amount of money for a fixed period of time. An ely is typically
